

INSTRUCTIONS FOR POTHOLES REPAIRS SALES AGENTS

1. Identify commercial areas infested with potholes

They look like this:

We will refer you to small plazas and businesses with small parking lots that are likely to need pothole repair services. We will use Google Maps to mark these areas and create a route for the agents.

2. You need to be equipped with proper gear, such as reflective vests, gloves, and hard hats, as well as a supply of cold asphalt mix, shovels, and tampers.

3. You will need to identify the potholes, make photos and measurements, and then to approach businesses with a friendly demeanor and introduce yourselves. Explain the pothole repair services we offer and the benefits of hiring your company, such as safer and smoother driving surfaces for customers, and the convenience of not having to worry about pothole repairs themselves.

4. Emphasize that we are available immediately, and that the pothole repair process will be quick and efficient.

5. Offer your services at a reasonable price (we will instruct on pricing) and provide a clear explanation of the charges.

6. Make sure to leave a business card or brochure with contact information, so that businesses can easily reach our company in the future.

7. Make sure to collect business cards and send them along with the photos of the applicable potholes. Send your supervisor the contact details of the owner of the parking lot.

8. Above all, we would like to emphasize the importance of safety during the sales and pothole repair process. Ensure that you are properly trained in safe pothole repair techniques, and that you are using appropriate gear and equipment to prevent injury. You are an independent contractor responsible for your own taxes and insurances if applicable.

PLEASE, PRINT PLENTY OF COPIES OF THE FOLLOWING INFORMATION FOR THE PROSPECTIVE CLIENTS:

ONE STOP PARKING LOT CARE OFFERS
